

Microprocessors and Microcontrollers Lab

Lesson Plan

Dept:-ETC

Week	Experiment
1	Perform the Arithmetic operations (addition and Subtraction) using microprocessor 8085.
2	Perform the Arithmetic operations (multiplication and division) using microprocessor 8085
3	Code conversion using microprocessor 8085
4	Temperature conversion using microprocessor 8085
5	Perform the Arithmetic operations (addition and Subtraction) using microprocessor 8086
6	Perform the Arithmetic operations (multiplication and division) using microprocessor 8086
7	Perform the Arithmetic operations (addition and Subtraction) using microcontroller 8051.
8	Perform the Arithmetic operations (multiplication and division) using microcontroller 8051.
9	Code conversion using microcontroller 8051
10	Temperature conversion using microcontroller 8051
